

VyomNext Help Center – RAG Training Document

Purpose: This document is used to train and populate the Retrieval-Augmented Generation (RAG) system for the VyomNext financial platform help center.

1. What is RAG in VyomNext?

Retrieval-Augmented Generation (RAG) combines a vector-based document retrieval system with a Large Language Model (LLM). For VyomNext, RAG enables accurate, policy-compliant, and context-aware responses for financial support queries by grounding LLM responses in verified platform data.

2. How This FAQ Data Is Used

Each FAQ is embedded and stored in a vector database. When a user submits a query, the system retrieves the most relevant FAQs and provides them as context to the LLM, ensuring reliable and non-hallucinated answers.

3. Financial Platform – 100 Training FAQs

Q1. What is VyomNext?

A1. VyomNext is a unified financial platform that allows users to manage bank accounts, payments, and financial services in one place.

Q2. How do I create an account on VyomNext?

A2. You can create an account by registering with your mobile number, email ID, and completing verification.

Q3. Is VyomNext free to use?

A3. Yes, basic services on VyomNext are free. Certain premium features may have charges.

Q4. How do I log in to my VyomNext account?

A4. You can log in using your registered user ID and password or via secure authentication methods.

Q5. What should I do if I forget my password?

A5. Use the 'Forgot Password' option to reset your password using OTP verification.

Q6. How is my data secured on VyomNext?

A6. VyomNext uses encryption, secure authentication, and compliance standards to protect user data.

Q7. Can I link multiple bank accounts?

A7. Yes, VyomNext allows linking multiple bank accounts from supported banks.

Q8. Which banks are supported?

A8. VyomNext supports major public and private sector banks.

Q9. How do I link my bank account?

A9. Go to Bank Accounts section, select your bank, and complete verification.

Q10. Why did my bank linking fail?

A10. Bank linking may fail due to incorrect details, network issues, or bank downtime.

Q11. What should I do if my payment fails?

A11. Check your bank balance and transaction status. If the amount is deducted, wait or contact support.

Q12. Why was money deducted but payment failed?

A12. This usually occurs due to bank processing delays. The amount is typically reversed within 3–5 working days.

Q13. How long do refunds take?

A13. Refunds usually take 3–7 working days depending on the bank.

Q14. Can I track my transaction history?

A14. Yes, all transactions are available in the transaction history section.

Q15. What is a transaction ID?

A15. A transaction ID is a unique identifier generated for every transaction.

Q16. How do I report an unauthorized transaction?

A16. Immediately raise a support ticket and temporarily block your account if needed.

Q17. Is KYC mandatory?

A17. Yes, KYC is mandatory to access all financial services on VyomNext.

Q18. How do I complete KYC?

A18. Upload valid identity documents and complete verification as instructed.

Q19. What documents are required for KYC?

A19. PAN card, Aadhaar card, or other government-approved documents are required.

Q20. Why was my KYC rejected?

A20. KYC may be rejected due to unclear documents or mismatched details.

Q21. Can I reapply for KYC?

A21. Yes, you can resubmit corrected documents.

Q22. How do I update my personal details?

A22. Go to Profile Settings and update your information.

Q23. Is my Aadhaar number stored securely?

A23. Yes, Aadhaar data is encrypted and handled as per compliance standards.

Q24. What should I do if the app crashes?

A24. Restart the app, update to the latest version, or contact support.

Q25. Does VyomNext support UPI payments?

A25. Yes, VyomNext supports UPI payments.

Q26. How do I change my registered mobile number?

A26. Submit a request through profile settings and verify via OTP.

Q27. What is a transaction PIN?

A27. A transaction PIN is a secure PIN required to authorize payments.

Q28. How do I reset my transaction PIN?

A28. Use the reset option with OTP verification.

Q29. Why is my transaction PIN blocked?

A29. Multiple incorrect attempts may temporarily block the PIN.

Q30. Can I use VyomNext internationally?

A30. Currently, VyomNext services are limited to domestic transactions.

Q31. What should I do if OTP is not received?

A31. Wait a few minutes and retry. Check network connectivity.

Q32. Is VyomNext RBI compliant?

A32. Yes, VyomNext follows applicable RBI and regulatory guidelines.

Q33. How do I close my VyomNext account?

A33. Submit an account closure request via support.

Q34. Are there daily transaction limits?

A34. Yes, limits vary based on account type and KYC status.

Q35. How do I contact customer support?

A35. Use the in-app Help Center to chat or raise a ticket.

Q36. Can I upload screenshots for support?

A36. Yes, screenshots and recordings can be uploaded.

Q37. How long does support take to respond?

A37. Response times vary based on issue priority.

Q38. What happens after I raise a ticket?

A38. An agent reviews your issue and connects with you if required.

Q39. Can I see my previous tickets?

A39. Yes, all past tickets are available in the Help Center.

Q40. What is priority support?

A40. High-impact issues such as failed payments are prioritized.

Q41. Can I cancel a pending transaction?

A41. Pending transactions cannot be canceled but may auto-fail.

Q42. Why is my balance not updated?

A42. Balance updates may be delayed due to bank processing.

Q43. Is screen recording safe to upload?

A43. Yes, uploaded media is securely stored and accessed only by support.

Q44. Does VyomNext use AI for support?

A44. Yes, AI is used for faster issue resolution.

Q45. Can I talk to a human agent?

A45. Yes, you can request to connect with an agent anytime.

Q46. What happens if AI cannot solve my issue?

A46. Your issue is escalated to a human support agent.

Q47. Are chat conversations recorded?

A47. Yes, chats are recorded for quality and compliance.

Q48. How is AI trained in VyomNext?

A48. AI is trained using FAQs, past tickets, and internal documentation.

Q49. Can AI access my personal data?

A49. AI only accesses limited, masked data required for support.

Q50. What browsers are supported?

A50. VyomNext works on all modern browsers.

Q51. Is there a mobile app?

A51. Yes, VyomNext is available on mobile platforms.

Q52. Why am I logged out automatically?

A52. This may occur due to inactivity or security policies.

Q53. How do I enable notifications?

A53. Enable notifications from app settings.

Q54. What if my bank is temporarily unavailable?

A54. Please wait and try again later.

Q55. How do I report a technical bug?

A55. Use the Help Center to report bugs with details.

Q56. Can I export my transaction data?

A56. Yes, transaction history can be downloaded.

Q57. Is my money safe on VyomNext?

A57. VyomNext does not store money; banks handle funds securely.

Q58. Does VyomNext store card details?

A58. No, card details are tokenized and not stored.

Q59. What is auto-resolution?

A59. Auto-resolution means AI resolves the issue instantly.

Q60. How do I give feedback on support?

A60. You can rate the support experience after resolution.

Q61. Why was my account temporarily blocked?

A61. Suspicious activity or security concerns may cause blocking.

Q62. How do I unblock my account?

A62. Contact support for verification and unblocking.

Q63. Can I use the same account on multiple devices?

A63. Yes, but simultaneous logins may be restricted.

Q64. What if I see incorrect transaction data?

A64. Report the issue immediately via Help Center.

Q65. Is VyomNext scalable for businesses?

A65. VyomNext is designed to scale for individual and business use.

Q66. Does VyomNext support multiple languages?

A66. Multi-language support is planned for future updates.

Q67. How often is the system updated?

A67. The platform is updated regularly for security and features.

Q68. Where can I read terms and conditions?

A68. Terms and conditions are available on the official website.

Q69. Who can access my support tickets?

A69. Only authorized support staff can access tickets.

Q70. Can I delete my data?

A70. Data deletion requests can be submitted to support.

Q71. What happens if a refund fails?

A71. The issue is escalated automatically for manual review.

Q72. How does VyomNext handle fraud?

A72. Advanced monitoring and alerts are used to detect fraud.

Q73. Can I reopen a closed ticket?

A73. Yes, tickets can be reopened if the issue persists.

Q74. Does VyomNext learn from resolved issues?

A74. Yes, resolved tickets improve AI accuracy.

Q75. Is customer support available 24/7?

A75. Support availability depends on issue type and priority.

Q76. How do I know my issue is resolved?

A76. You will receive a confirmation notification.
